To help a number of students who due to limited number of seats in post-graduate classes or for other reasons cannot enroll themselves as students of the University, the 73rd meeting of the Academic Council vide Resolution No. 5 held on 2nd September 2000 decided to introduce Distance Education in the University. This would provide an opportunity to the students who could not enroll themselves as students of the University to obtain a post-graduate degree through the mode of distance education. The degree shall have the same standard and status as the post graduate degree of the regular students under Semester System. The introduction of distance education would not allow a student to appear in the post-graduate examination as private candidate.

Dibrugarh University has decided to introduce Semester System in its undergraduate (BA/B. Sc/B. Com) programmes from the academic session 2011-12. Introduction of Semester System in the undergraduate level would limit the number of students enrolled to these programmes, as semester system demand a high student-teacher ratio. In order to create an opportunity to those students who would not be able to enroll themselves in the regular BA/B.Sc./B.Com Programmes in the college, Dibrugarh University has already introduced the Bachelor of Arts (BA) Programme in the Annual system through distance mode from the academic year 2011-2012.
